- ENSURE THE COT IS NOT PLACED TOO CLOSE TO HEATERS, BLINDS, CURTAINS, WINDOWS OR POWER POINTS.
- DO NOT HANG ANYTHING NEARBY WHERE THERE IS A POTENTIAL DANGER OF THE ITEM FALLING INTO THE COT.
- KEEP ANY MEDICATION, STRING, ELASTIC, SMALL TOYS OR SMALL ITEMS SUCH AS MONEY OUT OF REACH FROM ANY POSITION IN THE COT. It is advisable to keep all items out of your child's cot to prevent suffocation or strangulation.

Recommended Mattress Size.

- This cot has been manufactured for use with a mattress which measures 690 mm(Wide) x 1300mm(Long) x120mm(Maximum thickness). The width and length are specified because it is IMPORTANT that the gaps between the mattress and the sides and ends of the cot do not exceed 40 mm when the mattress is pushed to one side or end, and 20mm when the mattress is centred in the cot. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500 mm with the mattress base in the lower position to minimise the risk of a child climbing or falling out of the cot.

Safety Consideration for Bassinet.

- Re-tighten all connector bolts (at least two months after assembling the cot), as some may loosen as the cot settles. Regularly check all of the connecting bolts, making sure they are tight.
- Regularly check cot for weakness in timber joints and timber panels. If any weaknesses are found, report immediately to Strom via : customer.service@sjcbrands.com.au
- Do not use cot if it has been damaged in any way and always use genuine strom parts. Contact your nearest strom stockist or original place of purchase for spare parts.
